

**KEN Applications Subcommittee  
Interoperability Work Group  
July 20, 1:00 AM – 3:00 PM  
Conference Call**

**PRESENT:** Bo Lowrey, Rick Chlopan, Lee Muncy, Enid Wohlstein, Miko Pattie

**Review of Shibboleth:**

The group agreed to proceed with the 2 pilot sites. Cost info on support will be included in the recommendation.

**September 1 Report:**

We agreed to include the following:

1. Two matrixes – one on P-20 system overview and one on needs
2. Shib pilots
3. Language on new RFPs on interoperability – Single sign-on using Shib as example

**Categories of P-20 Needs:**

1. Rick suggested for us to use student's perspective to define needs and then to define systems that need to Interoperate, such as admissions, registration, etc. There is a group in KCTCS that's working with Toyota that has defined this. He will ask Sandy Cook for this and send to Miko.
2. Lee suggested to use teacher's, parent's, and administrator's perspectives in defining needs as well.
3. Miko will draft a needs matrix and post it in our work space:  
<http://ken.ky.gov/committees/itcommittee/appssubcommittee/appsworkgroups/interoperability.htm>

**Issues To Be Addressed:**

1. Revise and complete the Systems Matrix - Group
2. Revise and complete the Needs Matrix - Group
3. Define Shib pilots and obtain support costs – Enid, Bo and Cary, Miko
4. Language for RFP – Glenn and Rick

**Next Meeting: August 17, Friday, 10:00 –12:00 CPE Conference Room B**
